EDUCATION

University of North Carolina at Chapel Hill | Chapel Hill, North Carolina

August 2023 - *Expected* December 2026

Majors: B.S. Computer Science, B.S. Data Science

Relevant Coursework: Discrete Mathematics, Data Structures & Algorithms, System Fundamentals, Linear Algebra, Calculus, System Design, Web Design, Probability, Computer Organization

WORK EXPERIENCE

SAS Institute

March 2025 - Present

Web Design Intern (Summer 2025; Year-Round Offer)

- Redesigned the SAS Hackathon website (10k+ users) in Figma and Framer; implemented live on SAS.com using AEM with responsive layouts and branded components.
- Built custom sign-in prompt in AEM with HTML, CSS, and JavaScript, improving UX through scroll dismissal, cookie memory, and A/B testing for engagement optimization.
- Created 3D iconography and Lottie animations to enhance visual storytelling; collaborated with UX, marketing, and dev teams to deliver scalable, production-ready assets in an agile environment.

Product Manager - App Team Carolina, Centible

August 2025 - Present

- Lead cross-functional team to ship new features for *Centible*, a fintech app helping students track expenses and build financial literacy.
- Define roadmap and launch strategies through user feedback, competitor analysis, and product analytics; scope features like categorization, notifications, and transaction history into clear user stories and wireframes.
- Drove agile cycles across design, dev, and QA to ship releases, tracking KPIs in retention, engagement, and adoption.

Girls Who Code at UNC-CH

Jan 2024 - Present

Outreach Committee Lead

- Lead a team of 10+ UNC women in weekly development and maintenance of the GWC website using project management workflows; spearheaded redesign now used by 90+ current members and 600+ alumni.
- Manage onboarding and coordination of the Outreach team; oversee collaborations with UNC and community organizations.
- Previously completed the Bank of America-sponsored Summer Immersion Program; oversee annual outreach to 75+ student volunteers.

Carolina AR/VR at UNC-CH

February 2024 - August 2025

Media Chair & Hardware Development Team

- Explored and developed XR/VR/AR/MR hardware, including 3D printing, PCB programming, and haptics.
- Led projects for real-world applications with personal and client use.
- Oversaw visual and audio branding to maintain a cohesive professional presence.

1893 Brand Studio

August 2024 - August 2025

Web Developer, Graphic Designer

- Marketing division of The Daily Tar Heel, serving an audience of 50,000+ readers.
- Designed and developed websites and digital marketing materials for local businesses using Wordpress, and Figma.
- Collaborated with clients to create visually engaging branding, including logos and marketing collateral. Conducted market research to enhance customer acquisition and drive revenue growth.

PROJECTS

1st Place - Milwaukee Bucks Hackathon - Milwaukee Bucks & Modine Manufacturing

February 2025

- Designed a data-driven fan engagement strategy using RFM segmentation and Markov Chain modeling.
- Proposed a gamified lifecycle platform to improve retention, boost upgrades, and reduce churn.
- Presented findings to Bucks and Modine executives; awarded VIP recognition at a Bucks home game
